**DETAILED ACTION*****Allowable Subject Matter***

Claims 1-18 are allowed.

The following is an examiner's statement of reasons for allowance: The following is an examiner's statement of reasons for allowance: The examiner has reviewed the prior art in light of applicant's claimed invention and finds that the combined claims define over the prior art. The cited prior art does not disclose or suggest a semiconductor device inter alia the limitations "...providing at least one original fin made of a single crystalline semiconductor material on a substrate by means of a first lithography step; then providing a gate dielectric layer over longitudinal sides of the at least one original fin, then providing a gate electrode layer made of a conductive gate electrode material over the gate dielectric layer; forming contact trenches that pattern the at least one original fin in a longitudinal direction by mean of a second lithography step, wherein at least one transistor fin with a first head end and a second head end at a distance of a fin length from the first head end emerges from the at least one original fin, and wherein a gate electrode associated with the transistor fin emerges from the gate electrode layer; then processing the gate electrode, wherein the gate electrode recedes from both head ends; forming a source/drain- region in each transistor fin from the respective two head ends respectively..."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should
